The International Coalition on Science Gateways aims to provide an international forum for the science gateways community to:

- Provide leadership on future directions for science gateways
- Facilitate awareness and international, regional and national developments in science gateways
- Identify and share best practice in the field.

The International Coalition on Science Gateways aims to provide an international forum for the science gateways community to:

- Provide leadership on future directions for science gateways
- Facilitate awareness and international, regional and national developments in science gateways
- Identify and share best practice in the field

How can we achieve this together?
